Benson Systems Wins National Systems Integrator of the Year Award.

Benson Systems was recently chosen as the *Systems Integrator of the Year* by Security Sales and Integration Magazine, which is a national publication in the security industry. We won this prestigious award due to our systems integration design, and installation work, at the Westgate City Project in Glendale, AZ.

Westgate is a beautiful mixed use facility where Jobing.com Arena and the Arizona Cardinals Football Stadium is located... as well as many retail shops, hotels and soon to feature, beautiful upscale condominiums.

There were many competitors for this award, and all the others were large, national companies. Benson Systems was very proud to be bring this award home to Arizona! We appreciate Security Sales and Integration Magazine for bestowing this national

(L to R) Mark Bell, Director of Security for Westgate, Shawn Benson, President, Benson Systems, Nick Micatrotto, Security Sales Director, Benson Systems, Allen Bowman, VP of The Ellman Companies.

award on our company. Let us show you how we can help you with all of your system integration needs.

Benson Systems' Summer Food Drive another success!

The Benson Systems 2008 Summer Food Drive wrapped up July, 17th. This year, along with the company who shares our building, Infusion Software, more than \$2200 and many boxes of food and essential items were raised to help those less fortunate than ourselves.

As in past years, the items were donated to the United Food Bank.

This is an annual event for Benson Systems. The friendly competition between Benson Systems and Infusion Software always culminates at the end with one company just slightly edging out the other, as was the case this year when the employees of Benson Systems dug a little deeper and beat the 'Infusionites' by a mere 45 points.

The competition is all in good fun, and last year it was Infusion's turn to beat out the Benson Systems team!

Some of the people who donated money and items for this year's food drive, in front of the United Food Bank truck.

Meet our staff

Tom Como,
Project Manager.

Tom has been working with Benson Systems for nearly 9-years. He started with Benson Systems as a technician, and then took on managing many of the out-of-state jobs for Benson Systems when we were working with the Target Stores, installing security and camera systems for their million square feet distribution centers.

Tom works closely with the sales team, the installation team and customers to keep jobs flowing as smoothly as they can.

Tom lives in Gilbert, Arizona with his friend Kelli and their dog, Bella.

Tom Como

Ron Page,
Lead Technician
Project Manager

Ron has been working with Benson Systems since he retired from the Air Force, where he worked as an electrical technician. He is one of the most experienced technicians on our staff with vast experience of security camera installations, access control and IP based installations.

Ron works hand in hand with all of our clients to make sure their jobs are completed with good success.

Ron lives in Maricopa, AZ with his wife Michelle.

Beautiful new church one of our newest customers.

The beautiful new Desert Springs Church has risen off of the desert floor in south Chandler, and a beautiful building it is.

The Lead Pastor, Brad Davis, and his team have designed a contemporary building with very comfortable surroundings and many state-of-the-art features.

One of the systems that most impressed me was their electronic check in/out system for small children. The system lets the parents be in the main worship center enjoying the service, and if a child needs their parents the system will display a parents' number on a screen in the auditorium, letting the parent know they need to come check on their child.

The church is reaching out to the families of the Chandler, Gilbert and Mesa areas and I'm sure many families will benefit from and enjoy the new church very much.

The church auditorium holds approximately 600 people and there are many classrooms and church offices on the side of the auditorium. Large youth meeting rooms are on the rear of the building.

Desert Springs Church has met in various locations over the last 10-years, but are proud to call this new building 'home.'

While I was at the location helping with the design of their new security systems I was very impressed with the friendliness of the staff and their, in my opinion, fresh-approach to worship services.

If you wish to visit the church their address is 19620 S. McQueen Road Chandler AZ 85286. Their phone number is 480 726-0399, or their website is www.desertspringschurch.com.

With the economy getting rougher in some areas, theft of building materials is soaring. One of our long time customers, Rinker Materials, was recently purchased by Cemex, and Cemex is upgrading many of their security systems and adding security cameras in most of their locations throughout Arizona.

So, criminals beware. If you are going to steal something from Cemex, be sure to comb your hair and smile! We'll have you on video and the Police will look forward to their chat with you!

Are you thinking about installing a camera system at your business?

Let us show you how we can help YOU with your security camera needs.

Easy leasing programs make the video systems very affordable.

One of the things we all hate in life are unexpected surprises, especially when they cost us a lot of money. One of the best ways to avoid unexpected surprises with the systems we install for you is to get on a scheduled Service Maintenance Agreement.

With the scheduled Service Maintenance Agreement our technicians keep your systems in tip-top shape, by coming out twice per year to clean and maintain your system and install updates to your software. This scheduled maintenance can add years of service to your system. Also, in the event you need parts replaced and you are on a scheduled maintenance agreement, the parts and service calls are already covered! So, there are no unexpected surprises.

Call us today and ask us about a scheduled Service Maintenance Agreement, before YOU have an unexpected surprise.
